ID :	Task Name	2025-02		2025-03				2025-04				20	2025-05				2025-06				2025-	2025-07	
		17	23	02	09	16	23	30	06	13	20	27	04	11	18	25	01	08	15	22	29		
1	▼ Conceptual Design																						
2	Project Planing																						
3	Brainstorming																						
4	Literature-Survey																						
5	→ Getting Familiar with Hardware/Software																						
6	Research about NAO																						
7	Getting Hardware Ready																						
8	Capturing Live Camera Footages																						
9	▼ Software Development																						
10	Testing Face Recognition Models																						
11	Testing Gesture Recognition Models																						
12	Fine-tuning Custom Face Recognition Model																						
13	Capture Point Cloud Data using LIDAR																						
14	Get X,Y Coordinates using LIDAR and CAM																						
15	Create 2D Map of Room like a Video Game																						
16	ROS Integration																						
17	Testing and Project Refinement
